

Find Me

Cimorelli

I start my search for you
Like a needle in a haystack
I know it's worth it 'cause
You're the only one I'm needing
I can't imagine how everything is when we meet
When you're here with me
And the only one I can see

I count the stars in the sky
I wonder if you're looking at them too
I know you're out there
I can't wait 'til I find you
But until then

Every struggle, every goodbye
Every heartbreak, it's all for you
I'll go through it a hundred times
In hopes that I'll end up with you
And, oh
I know you're doing the same
Tryna find me too
Tryna find me too, ooh

I try to picture you
And I wonder if you do the same thing too
I'd like to know if you think of me
The same time I think of you

I count the stars in the sky
I wonder if you're looking at them too
I know you're out there
I can't wait 'til I find you
But until then

Every struggle, every goodbye
Every heartbreak, it's all for you
I'll go through it a hundred times
In hopes that I'll end up with you
And, oh
I know you're doing the same
Tryna find me too
Tryna find me too

And I will have faith
You'll find your way
I will have faith
I'll find my way to you

Every struggle, every goodbye
Every heartbreak, it's all for you
And I'll go through it a hundred times
In hopes that I'll end up with you

And I
I know you're doing the same
Tryna find me too
Tryna find me too

Find me too
