

# Kryptonite

Cimorelli

He doesn't try too hard  
It's catching me off guard  
He backs into every spot  
In the parking lot  
He's got the nicest eyes  
And I think I'm going blind  
Cause he gets me every time  
And I just can't let him in  
At least I think

He makes me want him so bad  
That I just want to be good  
Wanna be good  
And now I know we're past  
The point of no return  
No return

I think this guy is my kryptonite  
He got inside my mind  
He's taking my heart tonight  
I think he's hanging me out to dry  
Tryna put up a fight  
But it never felt this right

He's kryptonite  
He's kryptonite

My heart is on my sleeve  
It makes it hard to breathe  
I'm falling honestly  
This is born into me  
Borrow your sister's truck  
Just come and pick me up  
I love the innocence  
In this California love

He makes me want him so bad  
I just want to be good  
Wanna be good  
And now I know we're past  
The point of no return  
No return

I think this guy is my kryptonite  
He got inside my mind  
He's taking my heart tonight  
I think he's hanging me out to dry  
Tryna put up a fight  
But it never felt this right

He's kryptonite  
He's kryptonite

Plays the music that I hate  
You know I'll miss it when you're not around  
And get me in your shotgun seat  
Cause I'm the only one allowed

This is more than I can take in  
Come on, baby, come and save me

I think this guy is my kryptonite  
He got inside my mind  
He's taking my heart tonight  
I think he's hanging me out to dry  
Tryna put up a fight  
But it never felt this right

He's kryptonite  
He's kryptonite  
He's kryptonite  
He's kryptonite
