

One More Night

Cimorelli

All alone again
Time slips away
You don't know where it all went wrong
But you know this life has got you lost
You're pacing back and forth
Wondering what you're doing here

You think there's nothing left to give
You lose your hope
You lose your breath
You remember every regret
If you give up now, you'll never know that

Everything will be okay
Everything will be alright
Say a prayer
Close your eyes
Please just give it one more night
One more night

It can be so easy to forget
How quickly everything can change again
Cause this moment you're in now won't last forever
Yet somehow you're not seeing clear

You've got everything to give
Don't lose your hope
Don't lose your breath
Remember everything you're worth
If you give up now, you'll never know that

Everything will be okay
Everything will be alright
Say a prayer
Close your eyes
Please just give it one more night
One more night

One more night
One more night
One more night
One more night
One more night
One more night
Everything will be okay
Everything will be alright
Say a prayer
Close your eyes
Please just give it one more night
One more night

You can make it one more night.
Everything will be okay
Everything will be alright
Say a prayer
Close your eyes
Please just give it one more night

One more night
One more night
One more night
