

Waste Your Time

Cimorelli

I wanna tell you all my secrets
I get the feeling you would keep them
You know sometimes you're all I think about
Sitting alone in my car talking to myself

You make me blush and turn away
You are too much but can't you stay

Put your hand in mine
Put your hand in mine
I just wanna waste
I just wanna waste all your time
I just wanna waste
I just wanna waste all your time

Tell me all about when you were young
I'll think about you when I wake up
Trying not to get in too deep
But with you I just can't help it

I just can't
I just can't help it

You make me blush and turn away
You are too much but can't you stay

Put your hand in mine
Put your hand in mine
I just wanna waste
I just wanna waste all your time
I just wanna waste
I just wanna waste all your time

You're so sweet it's killing me
I wanna tell you everything
You're on my mind
Like all the time
I wish that I could make you mine

I wanna waste all your time
I got it so bad
I wanna waste all your time
I got it so bad
I got it so bad

Put your hand in mine
Put your hand in mine
I just wanna waste
I just wanna waste all your time
I just wanna waste
I just wanna waste all your time

I just wanna waste
I just wanna waste all your time
I just wanna waste
I just wanna waste all your time

I just wanna waste
I just wanna waste all your time
I just wanna waste
I just wanna waste all your time
