

Good Thing

Cindy Morgan

Bright good morning
See the sun is waiting there
To greet me with a sweet smile
New day dawning
All the colors dance and swirl
And burst into the springtime
All across the world
We live because You give life

Thank You for the life you've given me
And that you were always there to inspire me
Oh you fill me with Your light
You set me free
Wanna give You all my love
Cause Your love's such a good thing
Your love's a good thing

Rainy morning
When You send a melody
To dance upon the rooftop
Thunder rolling
And a flash that lights the night
We see You with new eyes
All across the world
We live because You give life

Thank You for the life you've given me
And that you were always there to inspire me
Oh you fill me with Your light
You set me free
Wanna give You all my love
Cause Your love's such a good thing
Your love's a good thing

And from heaven comes a flood
That covers all of us
You breathe new life
You breathe in us
In everything You do
And everywhere You move
You show us you are good
