Wow

Cinerama

You've avoided questions that could've easily spoilt the mood
Like where does my girlfriend work, what's her favourite food?
I think I know someone who could give me an alibi
So, yes, I think I've just proved that I'm prepared to lie

But there is nothing quite like a secret rendezvous
I think I know already what I'm going to do
Outside the air is cold and your arm slips into mine
When you invite me in, you know I won't decline

But I don't want to stay forever
I don't want to leave my girlfriend but, wow!
This isn't happening the way I'd planned
I'm not going to say never
But I don't want to fall in love right now
Well, just as long as we both understand

As you lead me up the stairs, I'm leering at your thighs
You're revealing parts of me I just don't recognise
You leave behind a scent that lingers in the air
It draws me up the steps, but I should not be there

But I don't want to stay forever
I don't want to leave my girlfriend but, wow!
This isn't happening the way I'd planned
I'm not going to say never
But I don't want to fall in love right now
Well, just as long as we both understand

You're telling me, almost compelling me to stay
But don't close the door, because I'm still not sure
Ok
