Airplane Dance

Circa Survive

They've got something green just for our condition Safely in hands Any unconscious faith you had in your convictions On an airplane we dance

And even off the aircraft
Everything seems to make us laugh
Attention won't come easy
It never did
It never did
It comes easier

We've got something great so hopefully you trust us And don't do too much Any unconscious faith you had in your convictions On an airplane we dance

And even off the aircraft
Everything seems to make us laugh
Attention won't come easy
It never did
It never did

So what you ended up having to say You're always gonna owe me the same We're all, we're all over the influence We're collecting interest

And even off the aircraft
Everything seems to make us laugh
Attention goes away
But we always end up
On the plane
We're off the plane
On the plane
We're off
