

Battle, My Love

Circa Survive

I know what you said
And I've been torn apart since the day you left,
And I don't think I can
Do it again,

Too much in my own head,
I'm totally obsessed with the shit you said,
And I don't think I can
Do it again,

Battle, my Love
I will see you in the end,
Carry my heart with you always,

How much should I take
When everything you made you will someday break,
And I don't think I can
Build it again,

Too much in my own head,
And I've been torn apart since the day you left,
And I don't think I can
Do it again,

Battle, my Love
I will see you in the end,
Carry my heart with you always,

I know what you meant
And I've been torn apart since the day you left,
And I don't think I can
Do it again,

Too much in my own head
I'm totally obsessed with the shit you said
And I don't think I can
Do it again
