

Be Somebody Good

Circa Waves

Where were we when the sun was set?
I found myself in your hotel bed
I didn't know, didn't know you'd left
Till I found a note that said
Yeah, I found a note that said

I don't wanna be yours anymore
Talking to myself for evermore
I just wanna be somebody, be somebody good
I just be somebody, somebody

I wanna be somebody good
I wanna be somebody good
I wanna be somebody good
Be somebody good
Be somebody

Where were we when the sun was set?
I've got a song going round my head
I didn't know, didn't know you'd left
Till I found a note that said
Yeah, I found a note that said

I don't wanna be yours anymore
Talking to myself for evermore
I just wanna be somebody, be somebody good
I just be somebody, somebody

I wanna be somebody good
I wanna be somebody good
I wanna be somebody good
Be somebody good
Be somebody

I don't wanna be yours anymore
Talking to myself for evermore
I just wanna be somebody, be somebody good
I just wanna be somebody, be somebody

I wanna be somebody good
I wanna be somebody good
I wanna be somebody good
Be somebody good
Be somebody
