

Golden Days

Circa Waves

Oh we're caught in the moment
Looking for ways to kill our time
Wanna live forever under a sky of satellites

I heard you were looking out for me
And you are the only one I see
So, we were caught in the moment
Wondering who the hell to be

Oh I wanted your love
I wanted your love
Every single time
Oh I wanted your love
I needed your love
To make me more alive
And things will change, or so they say
I wanted your love
I wanted your love
Through these, golden days

Yeah we chased the streetlights
Blowing the blues skies out the way
There's more ways to get by
When we're both high for the day

I heard you were looking out for me
And you are the only one I see
We chased the morning as the birds were calling us to stay
Oh I'm sure you can hear my heart now
Cause it's beating so damn loud

Oh I wanted your love
I wanted your love
Every single time
Oh I wanted your love
I needed your love
To make me more alive
And things will change, or so they say
I wanted your love
I wanted your love
Through these, golden days

But I get
I get the feeling
That these days coming to an end
Oh, I get
I get the feeling
That these days coming to an end
Oh, I get
I get the feeling
That these days coming to an end
Oh, I get
I get the feeling
That these days coming

Oh I wanted your love
I wanted your love

Every single time
Oh I wanted your love
I needed your love
To make me more alive
And things will change, or so they say
I wanted your love
I wanted your love
Through these, golden days
