

Honeymoon Rain

Circa Waves

She said throw the [?] around
I got some friends coming from outta town
I said oh please I've got enough on my plate
Oh [?]

She said I'll never ever see you again
If you don't try to make friends with my friends
I said oh please this is not how it ends
Not how it ends
She said

Don't cry for me
That will drive you insane
Don't cry baby
There's no point crying
Over honeymoon rain oh

Honey honey, honeymoon rain
Honey honey, honeymoon rain

Let's put tonight in the can
You got some family out in Amsterdam
Let's catch a plane and get the hell out of town
But then you turned around

She said I'll never ever see you again
If you don't try to make friends with my friends
I said oh please this is not how it ends
Not how it ends
She said

Don't cry for me
That will drive you insane
Don't cry baby
There's no point crying
Over honeymoon rain oh

Don't cry for me
That will drive you insane
Don't cry baby
There's no point crying
Over honeymoon rain oh

Honey honey, honeymoon rain
Honey honey, honeymoon rain

She said
Don't cry for me
That will drive you insane
Don't cry baby
There's no point crying
Over honeymoon rain oh

She said
Don't cry for me
That will drive you insane
Don't cry baby

There's no point crying
Over honeymoon rain oh

Honey honey, honeymoon rain
Honey honey, honeymoon rain
