

Lost It

Circa Waves

We're pushing back on me and keep me going
The ground is clinging to my feet
The room is spinning around and around
I need some sorrows to drown

Will you come and talk with me?
And keep me company?
I'm right where I need to be

Yeah we lost it, the people we know
Yeah we lost it and blamed it on someone
Am I too young to keep this going?
Am I too young to keep this?

Yeah we lost it, the people we know
Yeah we lost it and blamed it on someone
Am I too young to keep this going?
Am I too young to keep this?

Pushing through the sticks and stones, the conversation
Broken by some broken homes, out on vacation
I hate this place, but wander up here all the time

Will you come and talk with me?
And keep me company?
I'm right where I need to be
Please say something

Will you come and talk with me?
And keep me company?
I'm right where I need to be

Yeah we lost it, the people we know
Yeah we lost it and blamed it on someone
Am I too young to keep this going?
Am I too young to keep this?

Yeah we lost it and the people we know
Yeah we lost it and blamed it on someone
Am I too young to keep this going?
Am I too young?

Yeah we lost it and the people we know
Yeah we lost it and blamed it on someone
Am I too young to keep this going?
Am I too young to keep this going?

To keep this going
Am I too young?
