

# Never Going Under

Circa Waves

I wake up streamlined  
Is this the day that I die  
Throw my things in the fire  
Let em burn for a while

This room is made for me and you  
For me and you  
Yeah, this room is made for me and you  
For me and you

No one gets high like we do  
Baby they try to pull us down but we're never going under  
But we never going under

I wake up streamlined  
Is this the day that I die  
Throw my things in the fire  
Let em burn for a while  
This room was made for me and you  
For me and you

Yeah, this room was made for me and you  
For me and you  
But no one gets high like we do  
Kills the time like we do  
Wonders why like we do  
Feels alive like we do

Yeah no one gets high like we do  
Baby they try to pull us down but we're never going under  
But we never going under

But no one gets high like we do  
Kills the time like we do  
Wonders why like we do  
Feels alive like we do

Yeah no one gets high like we do  
Baby they try to pull us down but we're never going under  
But we never going under
