

The Way We Say Goodbye

Circa Waves

Take this plane, delay it
I was only waiting for you, you know
For you, you know

I stayed in here for ages
I felt the sunlight fading on you, you know
On you, you know

But it's the way we say goodbye
It kills me now
It's the way we say goodbye
It kills me now
And I won't look back in time
'Cause darling, it's just the way we say goodbye

So take this plane, delay it
I heard the music fading
With you, you know
With you

We'll stay outside the cages
And read all the last pages
With you, you know
With you

And I miss you, God I miss you
Well love, I miss you, you know I do

But it's the way we say goodbye
It kills me now
It's the way we say goodbye
It kills me now
And I won't look back in time
'Cause darling, it's just the way we say goodbye

And I miss you, God I miss you
Love, I miss you, you know I do

And I won't look back in time
'Cause darling, it's just the way we say goodbye
Just the way we say goodbye
Just the way we say goodbye
