

Times Won't Change Me

Circa Waves

I heard it coming
In every thunder I wonder how
The sky is falling
And every morning
I say these times won't change me now
No, these times won't change me now
Change me now

We cut the corners
Cut the labels from our necks
If God is coming
Well, God can save us
'Cause these times won't change me now
No, these times won't change me now
Change me now

Change me now, now, now
Now, now, now

I heard it coming
Unpack the pictures from the shelves
I kept the sunset to myself
'Cause these times won't change me now
No, these times won't change me now
Change me now

We cut the corners
Cut the labels from our necks
If God is coming
Well, God can save us
'Cause these times won't change me now
No, these times won't change me now
Change me now

Change me now, now, now
Now, now, now
Change me now, now, now
Now, now, now

No, these times won't change me now
(Change me now, change me now)
No, these times won't change me now
(Change me now, change me now)
No, these times won't change me now
(Change me now, change me now)
No, these times won't change me now
Change me now, change me now

'Cause these times won't change me now
No, these times won't change me now
Change me now
'Cause these times won't change me now
No, these times won't change me now
Change me now

Change me now, now, now
Now, now, now

Change me now, now, now
Now, now, now
