

# Wake Up Call

Circa Waves

I just can't help it  
Landed in love  
For a moment  
Things were looking up  
You know the punch line  
Before the joke  
You drink a whiskey  
Without the coke

Honey used to work in the morning  
While I'm still half asleep  
Yeah honey used to work in the morning  
Without me

Oh, this is your wake up call, that I need  
I've been lying to myself for weeks  
Your wake up call, that I want  
I'm just trying to find my way back home  
For your wake up call

What's that sensation?  
I'm on the ropes  
Self deprecation  
Or is it love?  
My stomach's turning  
Like drying towels  
My ears are burning  
Consonants and vowels

Honey used to work in the morning  
While I'm still half asleep  
Yeah honey used to work in the morning  
Without me

Oh, this is your wake up call, that I need  
I've been lying to myself for weeks  
Your wake up call, that I want  
I'm just trying to find my way back home  
For your wake up call

Don't leave  
Just stay  
I'll be right here  
Most of the day  
Don't leave  
Just stay  
I'll be right here  
Most of the day  
Don't leave  
Just stay  
I'll be right here  
Most of the day

For your wake up call
