

We Made It

Circa Waves

Born in summer
To an English mother
Ran through sea air
Always with each other

I said you run like a racehorse
I said you, you talk like a chainsaw

I said it took a long, long time to get here
But yeah we made it, yeah we made it
Every silver line was a gold mine as the sun was fading
Yeah we made it, yeah we made it
Yeah we made it

Lost your mother
Don't know if you'll recover
Found the bottle
Like so many others

I said you run like a racehorse
I said you fun like a blowtorch

I said it took a long, long time to get here
But yeah we made it, yeah we made it
Every silver line was a gold mine as the sun was fading
Yeah we made it, yeah we made it
Yeah we made it

And here you said
I'm coming up, don't you dare bring me down
I'm coming up, don't you dare bring me down
And hey-hey
This night's not wasted
And hey-hey
You're saying, "Yeah we made it"

I said it took a long, long time to get here
But yeah we made it, yeah we made it
Every silver line was a gold mine as the sun was fading
Yeah we made it, yeah we made it
