

## (drifts)

## Circulatory System

Why can't we drift along aimlessly along?

Why won't you drift along?

Why can't we drift along?

If enough want to move on this world will lift us up

Untangled from the trees we've found just what we need to stay  
aware

You'll know real soon they got the message the message

You'll know real soon they got the message today

Good and bad you'll get the message like i did

Good and bad you're both together in this world

You'll know real soon they got the message the message
