

Night Falls

Circulatory System

momentálně není videoklip k dispozici

When night falls
You never seem to notice what it was
When night falls
Will we even notice what it was in the morning?

When night falls
You never seem to notice what it was
When night falls
Will we even notice what it was in the morning?

Sunday
Is just a day away
Tonight it seems so happy
And the sky just lit up like a diamond
Its like a little star
It's away

Night falls
Night falls
Night falls
