

Until Moon Medium Hears the Message

Circulatory System

Sometimes you feel in a dream always
Sometimes it seems in a dream always

We spent our days on earth in the oxygen there
It's so clear now so clear now
We can just stop looking forward to it and start looking around
it around it
Because we're coming to the end
Or did we just begin?
Because we're coming to the end
Or did we just begin just begin?
Of course we come around again of course we've come around again
Around again
Of course we come around again of course we've come around again
Around again
We're coming to the end
Or did we just begin just begin?

So many long ago you'll be them you are them you've been them
One by one

Thought you request to hear the symphony is there inside you
My friends don't ever think the mystery is not there to guide you

We spent our days on earth in the oxygen there
It's so clear now so clear now
So let's just stop
