

Flames

Circus Maximus

There is no need to decide
Light the fire, let me die
I feel no more agony
It is just like it should be

My burning fire, take me home
My one desire, feed me more
My only choir, in my dome
Let me rewire...

Shed my flesh inside the heat
Keep on going till the last heartbeat
I'll know then that I'll become
The one thing you should stay away from

My burning fire, take me home
My one desire, feed me more (and more)
My only choir, in my dome
Let me rewire...

I want to fade from a life that's never real
All alone but I am with me
I am the master of my final journey
Hold onto your seat and feel
And feel...

My burning fire, take me home
My one desire, feed me more (and more)
My only choir, in my dome
Let me rewire...

Let me go
Let me go
And let me go
Just let me go
Let me go
