

Loved Ones

Circus Maximus

I was there for a moment, but now I am gone
I was watching over you and gave you all the clues

So I gave new life to a withered rose
Tears filled my eyes and all the rest I suppose
I guess my life was ripped away from me
In death, vengeance will set me free

Loved ones, this is your song
I wrote it to you
Now that I have found what I've been looking for
I wished I could tell you

You can't see through my transparent flesh
Floating through time and space, I'm weightless
I'm in that other place where you go when you die
The place where everyone goes

So I gave new life to a withered rose
Tears filled my eyes and all the rest I suppose

Loved ones, this is your song
I wrote it to you
Now that I have found what I've been looking for
I wished I could tell you

So I gave new life to a withered rose
Tears filled my eyes and all the rest I suppose
I guess my life was ripped away from me
In death, vengeance will set me free

Loved ones, this is your song
I wrote it to you
Now that I have found what I've been looking for
I wished I could tell you
