Every Waking Moment

Citizen Cope

I watched the country move slow I watched a city for a dollar get sold I watched a bella take off her clothes I watched the miles from the car window

Every waking moment i'm alive I'm searching for you Whether i know it or not Or whather i realize Every waking moment i'm alive I'm searching for you Whether i know it Or whether i realize Every waking moment i'm alive

I've been to Paris I've been to Rome Never been to Laos But i'll lie and say i've gone I've been touched by a woman that i lust I've been real high I've been real low

Every waking moment i'm alive I'm searching for you Or whether i realize Every waking moment i'm alive I'm searching for you Whether i know it Or whether i realize Every waking moment i'm alive Every waking moment i'm alive..
