

## Healing Hands

Citizen Cope

I will never forget your healing hands my love  
I thought my heart had stopped  
I swore I had given up  
I will never forget your healing hands my love  
You gave me daylight you gave me sunlight

Turn the tape recorder on  
He just left Jackie O for Marilyn Monroe  
We're all bought and sold  
For tobacco, firearms and alcohol  
What's a pocket full of gold  
Without a woman that you could hold  
Can't afford to be on the back burner no more  
Now I got a lot of places to go

Cause the actions of a few  
Have put a world in harms way  
And history has proven  
That they killed our leaders dead  
And I don't know about your right and wrong  
I got a muse  
From the east to the west  
All I know is if I never said it before  
I'm going to say it with my last breath

I will never forget your healing hands my love  
I thought my heart had stopped  
I swore I had given up  
I will never forget your healing hands my love  
You gave me daylight you gave me sunlight

Find something you can sell  
Set you on a trail  
Have a ball and a belle  
Buy a ticket out of Hell  
Not as far as I could tell  
Very Well

Bubba I'm a bust your tail  
My uncle Clarence hit  
The hammer with nail  
Wash your hand before  
You come to the meal  
Cut out the light  
Cause it comes with a bill

Cause the violence of a few  
Have put a World in harms way  
And history has proven that they  
Killed our leaders dead

Well I don't know about your right and wrong  
I got a muse from the east to the west  
All I know is if I never said it before  
I'm going to say it with my last breath

I will never forget your healing hands my love

I thought my heart had stopped  
I swore I had given up  
I will never forget your healing hands my love  
You gave me daylight you gave me sunlight

I will never forget your healing hands my love  
I thought my heart had stopped  
I swore I had given up  
I will never forget your healing hands my love  
You gave me daylight you gave me twilight

Never forget...
