

# Beyond Belief

Citizen Fish

It's bums on pews for the one-way view  
Of the scary world outside  
It's bombs on the news and we all sit glued  
And pray for better when we die

Cos you don't get to be president yet  
And you don't get to be king  
And you don't get to be given the guns  
Till you've done the religion thing

My God's bigger than  
Your God's bigger than  
His God's bigger than mine  
Hands together, eyes closed  
Who do you believe in? - Cos I don't

It's politic-man with your cross in his hand  
Behind his back saying "don't blame me"  
It's morality-man with his social plan  
On thought for the day - I thought "fuck me"

If religion had the power  
Or politicians had the soul  
Would either be a unity  
That wouldn't crave control?

[Chorus]

Then the God squad came with more of the same  
And the president sang with the usual gang  
Of caring for the kids in Afghanistan  
Whose parents got killed by the Taliban

Who were given the power by Americans  
Financed by right-wing Christians  
Altogether now holding hands  
Do the Gods of money and morality dance

[Chorus]

My God's bigger than  
Your God's richer than  
His God's armed to the teeth  
It's a war for our souls and their love of control  
Will take us beyond belief
