

Swindon town going down  
Another division today  
With the introduction of 'Mondex' cards  
Personality on display  
Out with those tiresome coins and notes  
It's a credit card status mirror to show  
You're a flexible reliable upbeat type  
Choosing to follow the 'optional' hype  
Believe consume then pay  
Believe consume then pay  
Here it all is to choose or refuse  
All your statistics, the portable you  
Name and number, size and amount  
Of transferable credit in your bank account  
Swindon town is being taken down  
The disinformation highway  
Consumer credibility testing ground  
Believe consume then pay  
Believe consume then pay  
Believe consume then pay  
The 'optional' tag is original stance  
You don't have to do it, but now here's your chance  
Gradually the rich and social elite  
Will be forcing the standards for us all to meet  
And once reported to be a success  
By those who do the consumer tests  
It'll be standard procedure across the nation  
Like satellite dishes - infatuation  
Gimmy, gimmy, gimmy more of it now  
Believe consume then pay  
Believe consume then pay  
Novelty rat race, acceleration  
Into a future with all hesitation  
Set aside by the fear of alienation  
From society - It's all connotation  
It's all connotation  
You are what you carry on plastic cards  
And plastic cards are carrying you  
When all you contain and all that you are  
Is lost - Well what will you do?  
But we refuse to play  
But we refuse to play - Create a false desire then feed it  
But we refuse to play - Create a false desire then feed it  
But we refuse to play - Create a false desire then feed it  
Create a false desire then feed it  
Create a false desire then feed it
