

# Fever

## Citizen Soldier

My head is a maze  
That you created  
Littered with empty threats  
(A bag of bones I have nothing left)  
You chose the gaslight me to death  
You made me sell my soul  
For your control

A prisoner to the mistake  
Of hoping you would change

Baby, we're born to lose  
When there's a fever in me  
There is a fire in you  
Now I have the shortest fuse  
Because the fever in me  
Won't calm the fire in you  
And I'm burning out

My heart is a cell that's built for hiding  
Cause I'm not allowed to hurt  
(Straight you're never satisfied)

Convince me darkness is what I deserve  
When I'm am at my worst you have it worse  
(You have it worse)

Baby, we're born to lose  
When there's a fever in me  
There is a fire in you  
Now I have the shortest fuse  
Because the fever in me  
Won't calm the fire in you  
And I'm burning out

I'm burning out, burning out this time  
I'm burning out, burning out this time  
I'm burning out, burning out this time  
I'm burning out  
I'm burning out, burning out this time  
I'm burning out, burning out this time  
I'm burning out, burning out this time  
I'm burning out

Baby, we're born to lose  
When there's a fever in me  
There is a fire in you  
Now I have the shortest fuse  
Because the fever in me  
Won't calm the fire in you  
And I'm burning out  
(And I'm burning out)
