

# Isolate

Citizen Soldier

My secret place  
I hide away  
My only way to be okay  
So much abuse  
Stitched in my brain  
The only world I've known betrays

Just let me sleep  
Just let me sleep

(Isolate) Can you pull me under?  
Can you shut the world away?  
Just leave me lonely  
I beg you: Let me isolate  
(Isolate) Can you pull me under?  
Lock me away where I am safe  
Just leave me lonely  
I beg you: Let me isolate

Don't pity me  
Here in my cage  
The darkness is my one escape  
I'd rather be  
Numb everyday  
Than live with what's been done to me

(Isolate) Can you pull me under?  
Can you shut the world away?  
Just leave me lonely  
I beg you: Let me isolate  
(Isolate) Can you pull me under?  
Lock me away where I am safe  
Just leave me lonely  
I beg you: Let me isolate

Let me sleep  
Nothing's real if I can't see  
This world has been so cold to me  
So leave me six feet deep  
So leave me six feet deep  
Just let me sleep

(Isolate) Can you pull me under?  
Can you shut the world away?  
Just leave me lonely  
I beg you: Let me isolate  
(Isolate) Can you pull me under?  
Lock me away where I am safe  
Just leave me lonely  
I beg you: Let me isolate
