

# Never Good Enough

Citizen Soldier

Here I am, once again  
Way too close to the edge  
Terrified, open eyes  
I'm seeing red  
I would rather die tonight  
Then let you down one more time  
One more time

Sick of coming undone  
Letting down everyone  
Mediocre at best  
Maybe better off dead  
Am I a failure from birth  
Is misery what I deserve  
Am I just so void of love  
That I'm never good, never good enough

Demonize, criticize  
Your words eat me alive  
Just like knives  
Tearing me from the inside  
What you want I'll never be  
Why can't you just be proud of me  
Proud of me

Sick of coming undone  
Letting down everyone  
Mediocre at best  
Maybe better off dead  
Am I a failure from birth  
Is misery what I deserve  
Am I just so void of love  
That I'm never good, never good enough

I hate to disappoint you but it's in my DNA  
Everything you give me I somehow will disgrace  
I never meant to be like this  
A grave mistake you can't forgive  
A filthy stain, oh what a shame  
Can you just wash me away

Sick of coming undone  
Letting down everyone  
Mediocre at best  
Maybe better off dead  
Am I a failure from birth  
Is misery what I deserve  
Am I just so void of love  
That I'm never good, never good enough
