

All Things

Citizen Way

I met a woman down the street at the park where my kids play
She was living underneath the trees because it's pretty hard to
find a job these days
We talked about the ups and downs of her life
As the tears filled her eyes she smiled and said something I wi
ll never forget
That in all things
All things
Give thanks to the One
Who meets our need before we know we even need it
Because all things are all the things I just can't handle
So I hand it to the One who takes care of all things
Tweet tweet tweet way up high in the sky fly the little birds
Without a care in the world
And how much more does our Father provide for the ones He loves
And I'm ashamed how I complain everyday about things that don't
matter anyway
And it makes me think of the woman down the street who said
To the scared soldier there on the front lines
To the cancer patient running out of time
To the father afraid he's gonna lose it all
To the single mom who doesn't even know where to start
To the ones who think they're all out of hope
To the ones who know the sting of death and feel all alone
Cast your cares for He cares for us
And there's nothing in this life that's bigger
Bigger than His love
