

Fall On Me Instead

Citizen Way

Lights go out but my thoughts are on
I lay awake dreaming in the dawn of new reality
A thousand miles and a thousand more
When does it end where's the open door to new reality

Oh I can see You there

Saying let this fall
Let it fall on me instead
Let it fall
Let it fall on me instead
Yeah

I lay awake dreaming in the dawn
But still I question the path I'm on
I need to shed this weight

Oh I can see You there

Saying let this fall
Let it fall on me instead
Let it fall
Let it fall on me instead

Oh the ache you feel I know it's real
I've been there I've been there
You're not alone let it go
Fall on Me

Fall
Let it fall on me instead
Let it fall
Let it fall on me instead

Oh the ache you feel I know it's real
I've been there I've been there
You're not alone let it go
Fall on me
