

Hold On

Citizen Way

Oh
Oh
Oh
Oh

Calling I hear you crying for repair
Fighting dying for some air

Don't let go there's a reason to hold on
Don't let go there's a reason to hold on
Think about me here without you
Think about all we all would lose
Right here all along I've been the one still holding

Tired aren't you tired of the din
Let me silence you within

Don't let go there's a reason to hold on
Don't let go there's a reason to hold on
Think about me here without you
Think about all we all would lose
Right here all along I've been the one still holding

There's more pain in throwing it all away
There's more pain in throwing it all away

Oh
Oh

Don't let go there's a reason to hold on
Don't let go there's a reason to hold on
Think about me here without you
Think about all we all would lose
Right here all along I've been the one still holding on
I'm still holding on

I'm here for you
Here for you
Here for you
Here for you

Here for you
I'm here for you
I'm here

Oh
Oh
