

# LIGHT LIGHT

Citizen Way

Okay, when did you write this?

I think I was 5 or 6

I remember, I came home and it was like Father's day or my birthday or something

And you had it on the seat and it was like I was hearing sounds in my ears for the first time

I was like

That was the goal

Like you could hear my eyes blinking, that's how surprised I was

I love this song, so then it turned out like this

Once I was lost in the darkness

But then You brought me in to the light

Light light show me the light show me the light

Light light show me the light show me the light

You are the light in me

You broke through the darkness, set me free

And nothing I do can ever undo what you've done for me

Woah, you are the light in me

Woah woah, you are you are

Woah

You sent Your Son to die on the cross for me

Your beautiful sacrifice set me free

Light light show me the light show me the light

Light light show me the light show me the light

You are the light in me

You broke through the darkness, set me free

And nothing I do can ever undo what you've done for me

Woah, you are the light in me

Woah woah, you are you are

Woah

Three days later You rose from the grave

You brought me hope and washed my sins away

Light light show me the light show me the light

Light light show me the light show me the light

You are the light in me

You broke through the darkness, set me free

And nothing I do can ever undo what you've done for me

Woah, you are the light in me

Woah woah, you are you are

Woah woah, you are you are

Woah woah, you are you are

Woah woah

Three days later you rose from the grave
