

Lights On

Citizen Way

I don't know why I didn't see it before
I don't know how but all I was searching for was You
You
All the lights that have kept me in the dark
They can't provide the healing for this heart
Like You
You
You turned the lights on
The lights on
And you opened my eyes
Opened my eyes
When You shine on
You shine on
I come alive
I come alive?
Lights on
You turned the lights on
And now my fear like shadows have to flee
If there is hope as far as I can see
With You
With You
Out of the grave
Out of the dark
Out of these chains
Into Your arms
I am awake
I am alive
Forever safe and found in Your light
