

## Bash Out

Citizen

You've got a mouth full of reasons  
I don't think it matters now  
And if you're so insistent, why don't you write it down?

If I never come around  
If you don't see me for a while  
Just know I ain't coming home

We split the difference  
I take my fair share for now  
Honey, I don't love you  
I just love when you're around  
Safe and sound  
You're sick in the head  
You're speaking my language now  
I do not want you  
I just want you to myself  
Safe and sound

If I never come around  
If you don't see me for a while  
Just know I ain't coming home  
Just know I ain't coming home

You're gone for the weekend  
I'll let you sort it out  
You bash out your brains  
Let them pour out onto the ground  
Let it out

If I never come around  
If you don't see me for a while  
Just know I ain't coming home  
Just know I ain't coming home
