

Can't Take It Slow

Citizen

Such a handful and some sharp words
Your one liners, they mean nothing
My struggles are so excitable
I just keep coming back for more

Cause I can't take it slow
Can't take it slow
Can't take it slow
Can't take it slow
If it's absolute, it's out of my control
Cause I can't take it slow
Can't take it slow

Whether crystal or marble
The fumes surround till you can see god

No, it's never going to be like it was
No, it's never going to be like it was
And I can't predict what's going to come
And you don't know what I'm thinking of

Can't be too careful and you don't want to
You've got a real good, sick sense of humor
My struggles are so beneficial
I just keep coming back for more

Cause I can't take it slow
Cause I can't take it slow
Cause I can't take it slow
Cause I can't take it slow
When push comes to shove, I'll be at your door
Cause I can't take it slow
Cause I can't take it slow

You may be clever, but you are a fool
And maybe I am too

No, it's never going to be like it was
No, it's never going to be like it was
And I can't predict what's going to come
And you don't know what I'm thinking of

No, it's never going to be like it was
No, it's never going to be like it was
And if your heart was really broken
Well then, you'd be dead on the floor

Cause I can't take it slow
Cause I can't take it slow
Cause I can't take it slow
Cause I can't take it slow
When push comes to shove, I'll be at your door
Cause I can't take it slow
Can't take it slow

No, it's never going to be like it was
No, it's never going to be like it was

And I can't predict what's going to come
And you don't know what I'm thinking of

No, it's never going to be like it was
No, it's never going to be like it was
And if your heart was really broken
Well then, you'd be dead on the floor
