

I've got means and I've got needs  
I've got to learn a lot of things  
At least you've got somebody to love  
At least you've got somebody to love  
I have a lot of means  
I can't believe you're wasting your life with me  
Baby, you have got somebody to love  
Baby, you have got somebody to love  
To love, oh

You're not bothered by what you see or what you've read  
What you see or what you've read  
You're not impressed by what I do or how I dress  
What I do or how I dress

I've been mean and I've been sweet  
Come out and open skies for me  
Melody makes you cry again  
Now that's the way we roll, yeah  
I have got a lot of means  
I can't believe you're wasting your life with me  
Baby, you have got somebody to love  
Baby, you have got somebody to love  
To love, oh

You're not bothered by what you see or what you've read  
What you see or what you've read  
You're not impressed by what I do or how I dress  
What I do or how I dress

Take the feeling in your head  
The rattle in your chest away  
Take the feeling in your head  
The rattle in your chest away

I've been dreaming, I've been sleeping  
Never waking up again  
Melody saves me once again  
Now that's the way we roll, yeah  
I have got a lot of means  
I can't believe you're wasting your life with me  
Baby, you have got somebody to love  
Baby, you have got somebody to love
