When I Let You Down

Citizen

At the bottom of the hill, across the street I used to live
There are some people that I used to know
And though it's been a minute
I will never go back there again

Everybody is talking about the things they'll do someday
And they're trading off their fantasies
But when they sleep it goes away
But I can't do that, I've got to keep it moving
And that lets you down

It makes me sick
When I let you down
It makes me sick
It makes me sick
When I let you down
It makes me sick
It makes me

Saw someone out on the corner where I used to live
We had spent a couple years together in the past
But I can't sit here dying like he has been

Said it's okay if you like the rain
Because sometimes it's beautiful
And it's okay if you like the pain
But you want some good times too
Man, you've got problems
You never want to solve them
And that keeps you down

It makes me sick
When I let you down
It makes me sick
It makes me sick
It makes me sick
When I let you down
It makes me sick
When I let you down

It makes me sick
When I let you down
It makes me sick
It makes me sick
It makes me sick
When I let you down
It makes me sick

It makes me sick
When I let you down
It makes me sick
It makes me sick
It makes me sick
When I let you down
It makes me sick
When I let you down
