

## Caroline

Citizens

Caroline,  
You were a friend of mine,  
Long ago, when to err it was divine,  
You spoke your mind, to all the guys,  
They never knew, if what you said was true,

We started making sense,  
We never made any sense,  
We started making sense,  
We never made any sense,

Caroline,  
All this once upon a time,  
You would ask, if you could still come back to me,  
You run your mouth, on crowded nights,  
When the moon was high, and then all at once,

We started making sense,  
We never made any sense,  
We started making sense,  
We never made any sense,  
We started making sense,  
We never made any sense,  
We started making sense,  
We never made any sense,

When you looked up it all fall in to silence,  
No one lets a girl like you get bored,

We stopped making sense,  
We never made any sense,  
We stopped making sense,  
We never made any sense,  
We stopped making sense,  
We never made any sense,  
We stopped making sense,  
We never made any sense,  
We stopped making sense,  
We never made any sense,  
We stopped making sense,  
We never made any sense,

Oh, we stopped making sense.
