

# Everything for Nothing

Citizens

Head, up in the clouds  
Wings of an eagle, heart of a coward  
Under a spell, take down the teacher  
Put on the crown, gather the gold  
Well, I did what I wanted  
Spinning out of control

But when, I give all I have in vain  
It doesn't matter what I build if it crumbles down anyway  
And though I rise up before the day  
I'm doing everything for nothing just to prove I got what it takes  
But it's fake, I fade

Hand, tight to the plough  
All for some pleasure  
But it's wearing me down  
Lulled by a lie  
Won't find something better  
Then what's already found

But when, I give all I have in vain  
It doesn't matter what I build if it crumbles down anyway  
And though I rise up before the day  
I'm doing everything for nothing just to prove I got what it takes

But it's fake, I can't escape  
I'm getting tied up, I want to give up  
I don't wanna fade, can't be erased  
I gotta open up, gonna give You all my love  
Everything it takes, I don't wanna fade  
I don't wanna waste anymore, I've opened up my hands, You got it all  
I don't wanna fade, 'cause when I fade, I'm falling faster and faster

When, I give all I have in vain  
It doesn't matter what I build if it crumbles down anyway  
And though I rise up before the day  
I'm doing everything for nothing just to prove I got what it takes  
But it's fake  
I fade
