

Margins

Citizens

In the in between
In the things unseen
That is where I find You
That is where I find You
On the outer seams
Nothing's out of reach
That is where You find me
That is where You find me

I know You're so high above me
Still You came down to find me
Stepping into the margins
You meet me where I am
I know it's my human nature
To think I could earn Your favor
But You're not that kind of savior
You love me as I am

In the in between
In the things unseen
That is where I find You
That is where I find You
On the outer seams
Nothing's out of reach
That is where You find me
That is where You find me

I know You're so high above me
Still You came down to find me
Stepping into the margins
You meet me where I am
I know it's my human nature
To think I could earn Your favor
But You're not that kind of savior
You love me as I am

I know You're so high above me
Still You came down to find me
Stepping into the margins
You meet me where I am
I know it's my human nature
To think I could earn Your favor
But You're not that kind of savior
You love me as I am

Nothing's ever gonna separate me from You
I don't need to find another way to get through
Nothing's ever gonna separate me from You
From You

In the in between
In the things unseen
