

The sun was swallowed into black
A dark eye never knew
A hopeless fight to catch my breath
Beneath the waves of doom
I cried out, "Come and save me
Before I am consumed"
You answered, You rescued

And led me out to an open land of peace
My soul is well, I am [?] know that You delight in me
And in the dark You're redeeming light endures
Forever, I'm saved secure
Forever, I'm saved secure

This land has fallen bitter cold
I feel like death is near
Pursued by enemies of war
I tremble with great fear
You call out, "Child, remember
The day I heard your voice"
You answered, You rescued

You led me out to an open land of peace
My soul is well, I am [?] know that You delight in me
And in the dark You're redeeming light endures
Forever, I'm saved secure
Forever, I'm saved secure

You led me out to an open land of peace
My soul is well, I am [?] know that You delight in me
And in the dark You're redeeming light endures
Forever, I'm saved secure
Forever, I'm saved secure
