

Take Heart

Citizens

Go, into the dead of the night
Don't bring a torch or a knife
They're gonna say that you lost your mind to some archaic way
Out in the deep of the woods
You'll be the prey of the wolves
Don't be afraid, there's a light inside of you they cannot take

Run, into the heart of the flame
Stare down the eyes of the grave
You'll never die, that's a promise you can bet on with your life
Set all the worry aside
I'll be your shield in the fight
Don't be afraid, there's a light inside of you they cannot...

Take heart
Take heart
Take heart (I have overcome, I have overcome)
Take heart (You have overcome, You have overcome)
Take heart

Go, into the dead of the night
Don't bring a torch or a knife
They're gonna say that you lost your mind to some archaic way
Out in the deep of the woods
You'll be the prey of the wolves
Don't be afraid, there's a light inside of you they cannot...

Take heart
Take heart (I have overcome, I have overcome)
Take heart (You have overcome, you have overcome)
Take heart (We have overcome, we have overcome)
Take heart

I have said
All these things so
That in Me
You'd have peace
In this world
You'll have trouble
Take heart
