

Let's Keep On

Citron

Watching full of power as he stands
an eagle who encircles the land
Echoes are calling us near
mystery that we all fear

A wisdom that we never see
shadows seeking silently
Magic whatever he goes
a ghost nobody knows

Message of freedom
your reign we will defend
Long live your kingdom
until the very end

We fly so high and free
sailing together
Over the land and sea
searching forever
We fly so high and free
gimme time to shine
Over the land and sea
over the sun, over the sun

You're one step
beyond, your spell
from the hill up on high
time tells in your eyes

A wisdom that we never see
shadows seeking silently
Magic whatever he goes
a ghost nobody knows

Message of freedom
your reign we will defend
Long live your kingdom
until the very end

We fly so high and free
sailing together
Over the land and sea
searching forever
We fly so high and free
gimme time to shine
Over the land and sea
over the sun, over the sun
