

This Show Won't End

Citron

This show won't end
night's getting darker
Lights getting sharper
and steep, oh...

I'm looking for someone
I'm tired, pour me some
This show's just
all I need, oh...

Many machines coming
out of chain
They're like sea
they'll have a fate

This show won't end
I feel the tension
This plans the mission
it has...

I'm looking for someone
but all our show is gone
That's right we made it
I guess...

And sleeping I can
in my dreams play a little
on a largest scene
largest scene, oh...
