Miami

Once I get up on the dick, I ain't stopping till I nut
And depending how you lick it, you can stick it in my butt
I don't fuck with the wine, that make a bitch sleepy
Put Patron out, that's what get a bitch freaky
Fuck a soft nigga, I like my man aggressive
Grab me by my neck and apply a little pressure
Hit it from the back, with my leg on the dresser
The dick make you wanna get up and cook breakfast
Take your time with it baby, we ain't gotta rush
Got him looking at the sky 'cause he ain't tryna nut
Sit the pussy on his chest, and work it to his mouth
And do it like a nigga, buss a nut in his mouth
You can have it how you like it baby, this is your moment
Make a nigga lose his smile when I put the twang on him
Run circles round the clit, but do it with your dick
Let you put it in my ass, but it probably won't fit

Keep me wet, fuck me right, we can do it all night long (All night, all night, all night, all night, all night, all night, all night, all night)
Keep me wet, fuck me right, we can do it all night long (All night, all night, all night, all night, all night, all night, all night, all night)
All night
