

EVERYTHING IS BROKEN

City Morgue

Yung Germ

Looked death in the eyes 'bout thirteen times
I was in a trance 'bout thirteen nights (Okay)
Felt that my life was just dead to rights
Start to feel like a fighter after thirteen fights (What's up?)
How can I see when there's blood in my eye? (Huh?)
How can I do when I'm all out of time? (Huh?)
How can I sleep with nowhere to call home? (Huh?)
Wanna die shiny and metal and chrome, but no (Okay)
Enemies get too close to me
If I lost all hope, would you hope for me?
And these leeches, they sink their teeth in me
If I lost all blood, would you don' for me?
All these enemies get too close to me
If I lost all hope, would you hope for me?
Well, it is what it is, it was what it was
You can't fight back if you can't stand up

And everything is frozen
And everything is broken
Blow my brain out, free me
Come and Kennedy me
And everything is frozen
And everything is broken
Blow my brain out, free me
Come and Kennedy me (Sleezy)

Mama, she a whore, dad a drug addict (What?)
Mix that up, that's Thug's Passion (Smash)
You tried Percocets, you ever done acid? (What?)
Take a deep breath and we blood bath him (Doo-doo-doo-doo-doo)
Flashbacks like I'm back to twelve (Sleezy)
Mad packs, I had crack to sell (Work)
Flashbacks, I was back in Hell (No-no)
Kill myself, go back to jail (Boom boom)
No luggage, I just got a stick with me (Boom)
Why the fuck the government wanna put a chip in me? (Fuck outta here)
Really here thuggin' it, ain't no bitch in me (No, no)
Why I cheat on her and she still wanna stick with me? (Fuck outta here)
Shoot me 'til my back burns (No-no)
Stab me while my back turned (Fuck outta here)
Cook it 'til the crack burn (Work)
Maybe I'm just bad germs (Sleezy)

And everything is frozen
And everything is broken
Blow my brain out, free me
Come and Kennedy me
And everything is frozen
And everything is broken
Blow my brain out, free me
Come and Kennedy me
