

# Things We Do

Citybois

Shawty, Imma make you mine  
Uh baby, you're so sexy, so fine  
Driving in the starlight, I am lonely as can be  
I need your company, I need you for the night  
Sipping on the beach, I still see the citylights  
Uh-uh

Keep it floating, keep it coming too  
Sex and all the naughty things we do (things we do)  
Miami sits the same, but still it's different (still it's different)  
We used to be like one, now we're two  
Now we're two, yeah

Full canei, eruption from a peach  
So perfect, how we woke up at the beach  
Sunshine on the boardwalk, it ain't never felt so good  
You'll just heal me out, let's do it while we're young  
Just because we're broke, doesn't mean we can't have fun  
Uh-uh

Keep it floating, keep it coming too  
Sex and all the naughty things we do (things we do)  
Miami sits the same, but still it's different (still it's different)  
We used to be like one, now we're two  
Now we're two

Jumping in the limousine, we're on top of the world  
We don't want nothing but the good times  
Drive us to the outer space, I don't care where we go  
Imma want you at this time and at this spot

Uh-yeah  
Keep it floating, keep it coming too  
Sex and all the naughty things we do  
Miami sits the same, but still it's different (still it's different)  
We used to be like one, now we're two  
Keep it floatin', keep it coming too (comin' too)  
Sex and all the naughty things we do (we do)  
Miami sits the same, but still it's different (still it's different)  
We used to be like one, now we're two  
Now we're two, yeah, yeah
