

Little Men

CIV

One, two, three, four

Where you run to
Do you
Sleep in easy chair?
Where you run to
Do you
Have any comfort to spare?
Knock all their idols down
Tell all the men in town
They drove a hero out
The day they made you wonder

Where to run to
Does it matter
When they stoned you (Blood stains on their hands)
You knew
Little men were
Never met with such resistance
Where to run to
Does it matter
When they stoned you (Blood stains on their hands)
You knew
Little men were
Never met with such resistance

Where you ran to
Have you
Seen them stop and stare
Where you ran to
Did you notice
The square that fits in there
This day alarms will sound
You'll burn them buildings down
They wore your welcome out
The day they made you wonder

Where to run to
Does it matter
When they stoned you (Blood stains on their hands)
You knew
Little men were
Never met with such resistance
Where to run to
Does it matter
When they stoned you (Blood stains on their hands)
You knew
Little men were
Never met with such resistance

On
The day you started out
Direction wasn't known
Caution where you rest
Was whispered in your ear
Was whispered in your ear
I kissed against your face

A light to guide your way to
Never return again.

Where you run to
Does it matter
When they stoned you (Blood stains on their hands)
Where you run to
Does it matter
When they stoned you (Blood stains on their hands)

Where to run to
Where to run to
Where to run to
Blood stains on their hands

Where to run to
Where to run to
Where to run to
Blood stains on their hands

Blood stains on their hands

Blood stains on their hands
