

1989

Civet

Over the hollowed hearts of the east bay
I live for nothing, if not today
When you left you didn't even say goodbye
I saw it in your eyes man, you didn't even try

It's been so long now, since I've laid you down
Come back, come back to me (2x)
Times we're tough, but we're still family
Come back, come back to me...

Over the lines that divided my country
The good and bad that make up today
When I left I didn't say goodbye
You saw it in my eyes, I didn't even try

It's been so long now, since I've laid you down
Come back, come back to me (2x)
I buried my heart, in the east bay
Come back, come back to me....
